Lakewood, CO 80228

Dear Mr. Hemming:

Following our telephone conversation on Monday, January 8, I called Wayne Hedberg of Utah Division of Oil, Gas, and Mining to discuss the process for a partial release of the exploration bond. Mr. Hedberg and I agree that a partial release of the bond is possible. However, we feel a joint inspection documenting the rehabilitation is needed. To expedite the partial release, we have scheduled the field inspection for February 7 and 8. If the weather prevents the scheduled inspection, another will be scheduled as quickly as possible. Representatives of USMX are welcome to be present during this inspection.

If you have any questions, or need further information, please contact me at this office at extension 205.

Sincerely,

Larry Gore
Geologist
